eBook Only Swipes

7-Day Email Promo Sequence – AI-PLR Profit System

Day 1 – “The Problem No One Talks About”

Subject: What happened to all that PLR you downloaded?

Hey [Name],

If you’re like most online creators, marketers, or side hustlers…

There’s a folder on your computer packed with PLR you *swore* you'd use one day.

Templates, eBooks, checklists, swipe files...

But let’s be honest — how much of it actually made you money?

That used to be me too.

Until I figured out a **super simple workflow** for turning dusty PLR into digital products people actually buy.

It involves:

✔ A little AI (ChatGPT-style)
✔ A few free tools
✔ And a repeatable system

I wrote the whole thing down in a step-by-step guide:

Grab the AI-PLR Profit System Here

More on how it works tomorrow.

Day 2 – “The 3 Biggest PLR Mistakes (I’ve Made Them Too)”

Subject: The fastest way to ruin PLR...

Hey [Name],

PLR is awesome…

But most people use it *wrong* — and then wonder why it doesn't work.

Here are the 3 most common mistakes I see (and yep, I've done them all):

 Using PLR "as-is" without rewriting
 Getting stuck trying to build a full-blown course
 Collecting PLR but never actually *launching* anything

What finally changed for me?

I built a simple 3-step system to rebrand, rewrite, and launch using PLR + AI — fast.

If you've got PLR sitting around, you need this:

Inside, I show you exactly how to use ChatGPT, Google Docs, and free tools to launch your first (or next) product in days — not weeks.

Day 3 – "What If You Had This Ready By the Weekend?"

Subject: Imagine having your first product live by Sunday…

Hey [Name],

What if by this weekend, you had:

✔ A lead magnet
✔ A tripwire offer
✔ A full product (created using PLR)
✔ A working funnel — with no paid tools

That's not some dream scenario — that's literally what the **AI-PLR Profit System** was built to do.

You already have the content.

You just need the system to turn it into profit.

Day 4 – “My Favorite AI Prompt to Rewrite Any PLR”

Subject: Steal this AI prompt (seriously)

Hey [Name],

Here’s one of my go-to ChatGPT prompts to turn old or boring PLR into something fresh:

> “Rewrite this article in a casual, benefit-driven tone. Add 3 new examples and a strong CTA. Make it feel like a mini course.”

Try it with any PLR article or report you’ve got lying around.

It works like magic.

Want 100+ prompts like that? You’ll find them inside the bonus content that comes with:

The AI-PLR Profit System »

Because rewriting PLR is easy — *when you know what to ask AI for.*

Tomorrow I’ll show you how to build your funnel using only free tools.

Day 5 – “The Free Tools I Use to Build Funnels (No Tech Headaches)”

Subject: Build your funnel in a day — for free.

Hey [Name],

You don’t need expensive software to launch a product funnel.

I’ve built high-converting funnels using nothing but:

✔ Systeme.io (free)
✔ Canva (free)

✔ Google Docs (free)
✔ ChatGPT (free or cheap)

No code. No design skills.

Just a super simple system.

I broke it all down inside **The AI-PLR Profit System** — so you can follow it step by step and build your first product funnel this weekend.

Day 6 – "This Is Your Shortcut to Getting Paid Faster"

Subject: You don't need another course. You need this.

Hey [Name],

Here's something I wish I'd learned sooner:

> Done is better than perfect.
> Launched is better than "still working on it."
> A $9 product that's live beats a $99 course still in your head.

If you want to start getting paid faster with the tools you already have (PLR + AI), there's one system I recommend:
